

This technical drawing shows an exploded perspective view of a mechanical assembly. The main component is a rectangular housing (16) with a central longitudinal slot. On the left side, there is a circular flange (22) with a central shaft (14) and a series of radial fins (18). A bolt (20) is shown passing through the housing and the flange. A circular cover (90) is shown on the right side, with a central shaft (32) and a series of radial fins (92). A bolt (30) is shown passing through the housing and the cover. A series of bolts (24, 26, 28) are shown passing through the housing. A series of bolts (10, 12, 16, 18, 20, 22, 24, 26, 28, 30, 32) are shown passing through the housing. A series of bolts (14, 16, 18, 20, 22, 24, 26, 28, 30, 32) are shown passing through the housing. A series of bolts (10, 12, 16, 18, 20, 22, 24, 26, 28, 30, 32) are shown passing through the housing.
